saying the general health
are so generally known a
further remark on it

the operation is economically sold in an adulterated state, and is not unfrequently mixed with articles by which it is decomposed, and consequently its effects destroyed, it becomes of much less value than it should be procured in a genuine state. The successful results produced from the administration of the Compound Tincture of Quinine especially in the treatment of Acute, by the most eminent of the Faculty, are the best proofs of its efficacy and value.

Prepared only by JOHN H. GURRIN & Co., 21, Castle Street, Liverpool; and sold in Hongkong by ALFRED WILKINS, Chemist and Druggist, Wyndham Street.

11, 1900. Hongkong 15th July 1865.
